SCOPE OF CERTIFICATION

This certificate covers all production lots manufactured at the certified site under the documented quality management system. Sub-tier suppliers are subject to the same certification requirements and are listed in the approved supplier list maintained as part of the QMS.

AUDIT METHODOLOGY

Initial certification audit: Full system audit (Stage 1 + Stage 2).
Surveillance audits: Annual, minimum 30% of processes reviewed per cycle.
Recertification audit: Full system audit every 3 years.
Unannounced audits: Permitted by certification body with 24-hour notice.

CALIBRATION AND MEASUREMENT TRACEABILITY

All measurement equipment calibrated to national/international standards.
CMM calibration: Traceable to SI units via NIST/PTB/NPL.
Calibration interval: 12 months standard; 6 months for critical gauges.
Out-of-tolerance procedure: Documented, with impact assessment on recent lots.

NON-CONFORMANCE HISTORY (LAST 3 YEARS)

Major non-conformances: 0
Minor non-conformances: As noted in surveillance audit reports
Open corrective actions: 0 (all closed within required timeframe)
Customer complaints (QMS-logged): Available on request under NDA.

RESTRICTED SUBSTANCE TESTING (WHERE APPLICABLE)

ICP-MS (Inductively Coupled Plasma Mass Spectrometry): For Pb, Hg, Cd, Cr(VI)
XRF Screening: Initial screening per IEC 62321 series
GC-MS: For organic restricted substances (PBB, PBDE, phthalates)
Frequency: Per production lot for new materials; annually for qualified materials

SUPPLY CHAIN COMPLIANCE

Sub-tier suppliers audited annually for certification compliance.
Raw material certificates of conformance retained per lot.
Country of origin documented per customs and trade compliance requirements.
USMCA/FTA origin certification available per individual shipment on request.
